

EGU uno

Tailoring companies since 1999

OUR HISTORY

Born within Gallarate district, one of the main Italian textile centers where it is based, EGV1 has been synonymous of international experience and quality for over twenty years.

The history of the company founded by Valerio Fumagalli began in 1999 with the design and manufacture of uniforms for some of the world's major airlines companies.

The expertise and care dedicated to each project, from design to distribution, have meant that today more than 50 companies have chosen to rely on EGV1, just to mention Alitalia and Etihad.

It is in 2019 that the experience, as well as the ability to manage each procedural stage, led the company to acquire a world-renowned clothing brand: Ivy Oxford.

A project that contains all the know-how gained all over the years by EGV1 and aimed at enhancing Italian taste and design.

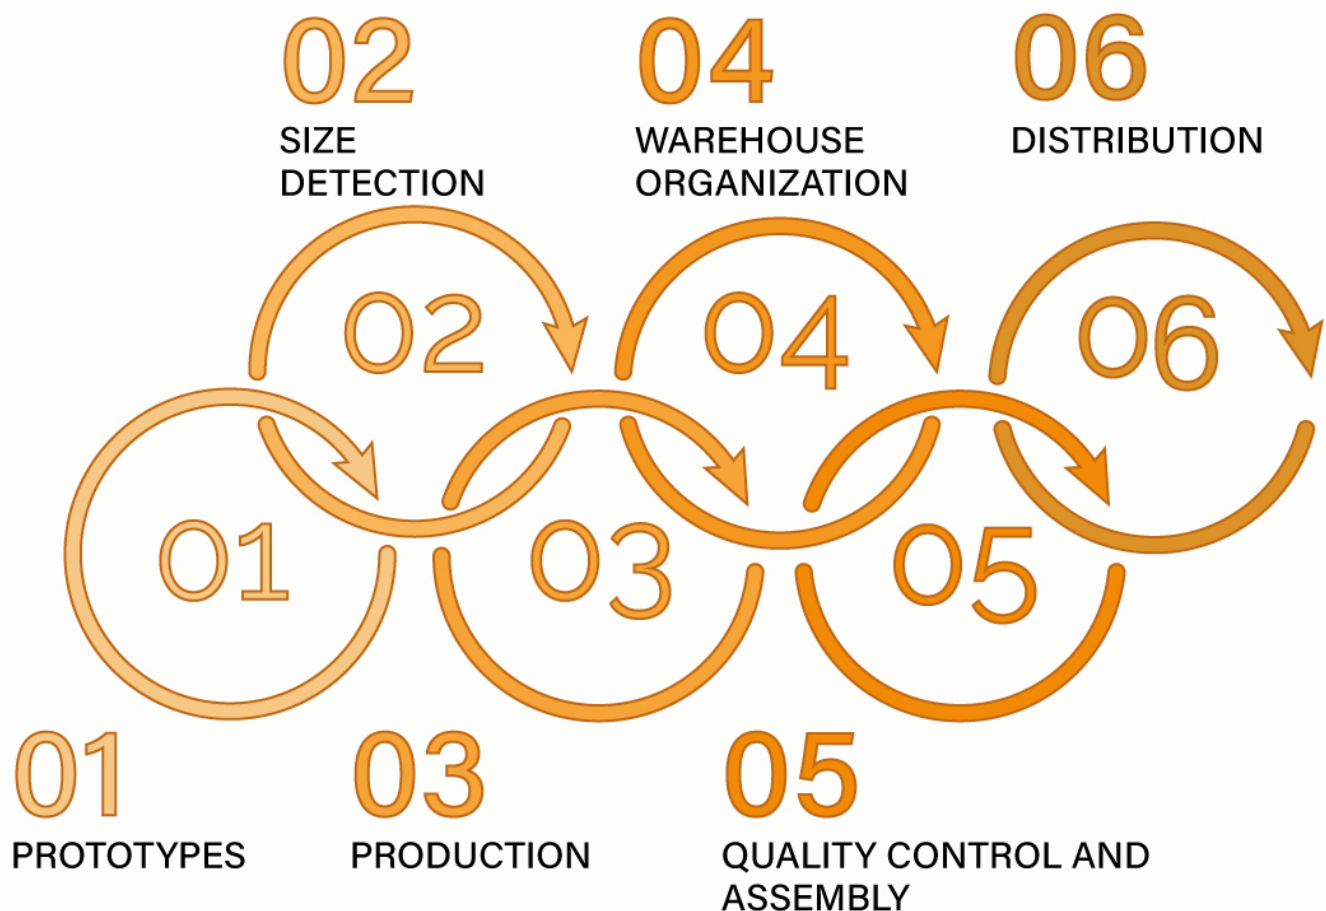

TURNKEY

Customer's satisfaction, together with his/her needs are our main goal, that is why we developed the "Turnkey" method.

In case you choose to rely on EGV1 for the **whole management of the project**, you will be provided with all the necessary support for its implementation, from the very initial briefing to the final distribution, ensuring more efficient processes as well as optimized times and costs.

Your employees wear the expression of Your Company. That is why we create clothing that represents you not only in terms of appearance but also in terms of quality. From uniforms to workwear, **we will dress your company as if it were ours.**

THE PRODUCTION PROCESS

01

PROTOTYPES

Research, to create products that represent your company and your territory.

The study of **raw materials**, to meet the technical and qualitative needs of Your sector with suitable elements for Your employees' activities.

The first **prototype**.

02

SIZE DETECTION

Size detection: thanks to an intelligent scan, it allows to **optimize stocks** by limiting surpluses.

03

PRODUCTION

The **production** of uniforms and workwear as per project and quantities required.

04

WAREHOUSE ORGANIZATION

The organization of our warehouse to dedicate a special section to the **stock of Your uniforms**.

05

QUALITY CONTROL AND ASSEMBLY

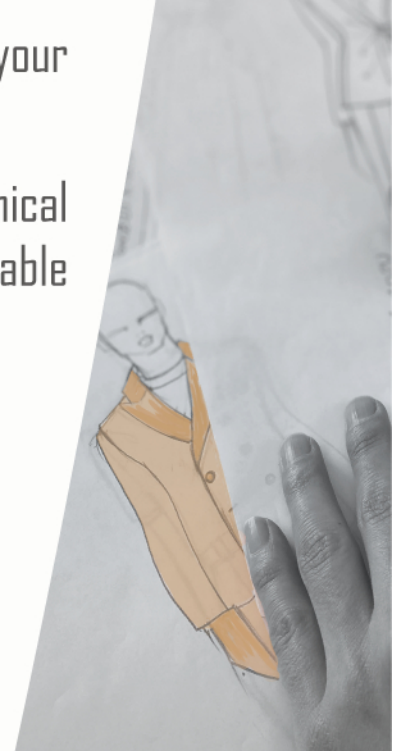

Quality control for each item produced and assembly in nominal boxes for each employee.

Tailoring modifications if necessary.

06

DISTRIBUTION

The **distribution management** according to Your needs.
